

Says

What have we heard them say?
What can we imagine them saying?

Thinks

What are their wants, needs, hopes, and dreams?
What other thoughts might influence their behavior?

1.At what age to vote and who can vote

2.We need to know how many people are eligible to vote in India and how many people have voter card

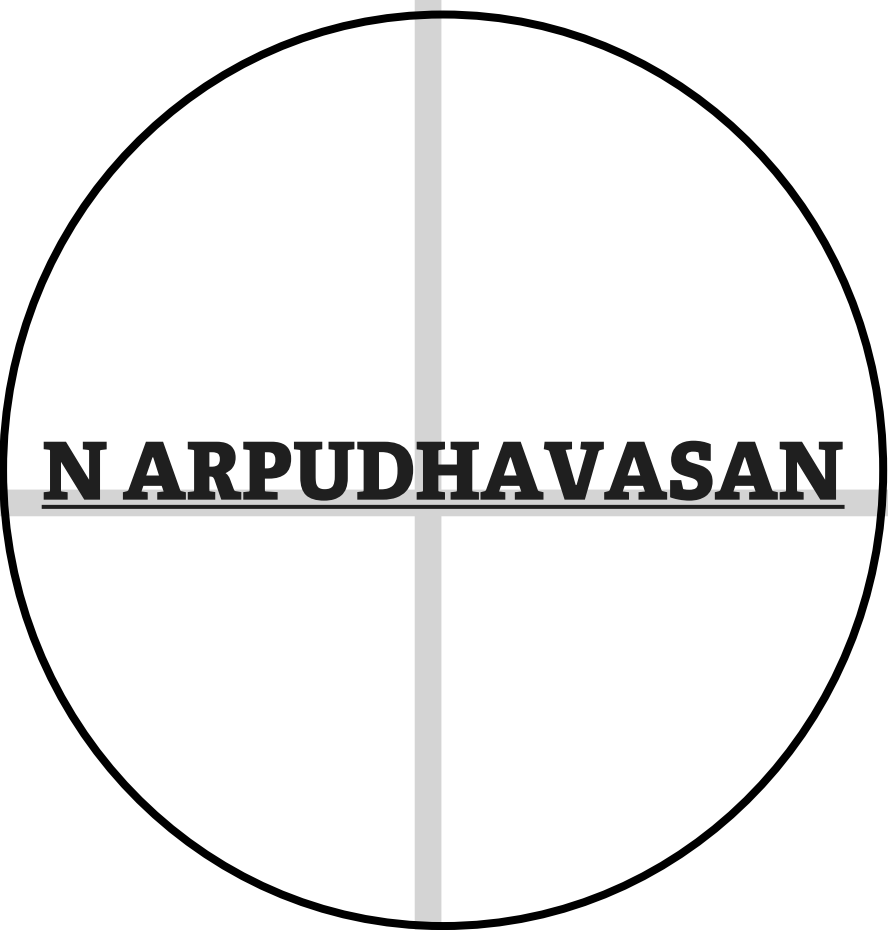

3.India has 20 Union Territories where 550 members can be elected and elections will be held in seven phases

1.Through this project, how many candidates have won the election, the total assets of the candidates can be known about their details

2.It is helpful to know who won which constituencies in India and how many votes they got and how much margin they won.

4.I am working on this project to know how elections are conducted in India, how candidates are chosen, how candidates make promises to the people.

3.This project helps to know how the Election Commission of India monitors the candidates

1.I went directly to the polling stations to find out how they vote and what percentage of people voted and what percentage of people did not turn up to vote.

2.I visited all party offices in India and collected their promised

3.I approached the Election Commission of India and with their help I got to know about the candidates contesting in the Indian Lok Sabha elections

1.After the victory of the election it was possible to know who the people thought should form the government

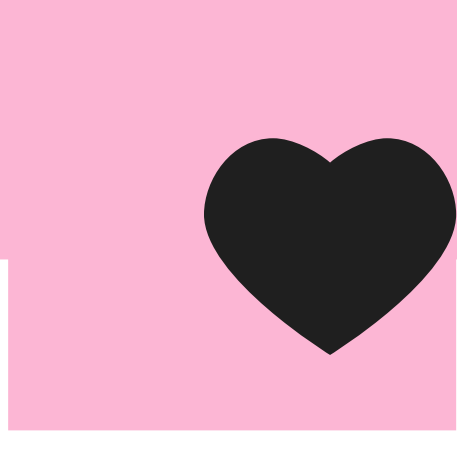

2.Those who lost the election were able to know the reason for their defeat and what to do in the next election

3.The National Democratic Alliance formed the government after the 1989 general elections with 37.36 percent votes.

Does

What behavior have we observed?
What can we imagine them doing?

Feels

What are their fears, frustrations, and anxieties?
What other feelings might influence their behavior?
